# Journal of Decision Systems

**Editor-in-chief**  
Frédéric Adam

2009

*Hermes*

*Lavoisier*

The *Journal of Decision Systems* publishes original articles in English and French which extend or consolidate scientific knowledge related to decision making processes and decision systems in organisations. The main purpose of the Journal is to be a forum for researchers and practitioners who study how organizations make decisions and who design, implement and evaluate computer-based decision systems. Therefore, papers on Decision Theory, Computer Science, Artificial Intelligence and Operation Research will be considered particularly if they are directly related to actual decision situations. In addition, the Journal will publish original case studies of organizational decision making and decision support.

*Journal of Decision Systems* is indexed :

- in PsycINFO, the research index of the American Psychological Association  
 - in Scopus  
 - by DBLP.uni-trier.de  
 - and available through Proquest® Database.

### Volume 17 – No. 2/2008

Decision Support for Financial Planning – **D. Kundisch, J. Dzoienziol**  
 Fuzzy Sets in Financial Analysis – **G. Radojevi, M. Suknovi**
